A hasty and somewhat abridged issue made necessary by Mr Lomax's imminent immersion in the necessary preparation for the Bognor Congress. In view of this most of (or all) of the junior events may have to be held over until the next issue. My apologies to the long suffering junior organisers.

END GAME STUDIES

EG is a quarterly magazine devoted exclusively to the chess endgame. In this respect EG is unique. EG covers endings and endgame theory. Original articles are contributed in practically every issue by such eminent authorities as Andre Cherov (EG3), Harold Lommer (EG3), G.M. Kasparian (EG6) and V.Nestorescu (EG9). Every issue now has 32 pages in a Handy size with beautifully clear diagrams and print on pure white paper. All the composed studies selected for EG are accompanied by full solutions. If you find a flaw, such as a 'cook', you are invited to contribute to the 'demolition' column run by Walter Veitch, the well-known Richmond player who won a queen sacrifice brilliancy against Golombek and then lost to Jonathan Penrose in nine moves in the same British Championship in 1950 - a promise of never a dull moment.

The annual subscription is £1-0-0 or \$3.00 covering four issues of EG and also attendance at meetings held in London, usually once a quarter. For further information please apply to the Editor, A.J.Roycroft, 17 New Way Road, London, N.W.9.
